These Cuts

- are often found on the tables of wealthy people where a saving in price is an object. They buy them because they like them for the reason that is in their hands. Compared with steaks and roasts, you cut the price in half and have just as tasty, appetizing and most strengthening meals. Our offerings for Tuesday and Wednesday are exceptionally nice in quality, and we would ask you to give them a trial.

GIBSON-GAGE CO.

CITY AND GENERAL

Sir Thomas Whittaker Arrives.—Sir Thomas and Lady Whittaker registered at the Royal Alexandra last evening. Sir Thomas' visit, it is understood, is upon business, considering his importance, the exact nature of which has not been ascertained.

Long Oats from Fort George.—J. V. Anderson, of Balmoral Court, has just returned from a trip to Fort George, going in from the end of the steel on the G.T.P. He brought to the Press a sample of oats from South Fort George, measuring over 7 feet in height. These oats were sown on May 15, and pulled Sept. 2, while still quite green.

Condition is Critical.—H. Hansen, who was injured in the C.N.R. yards on Saturday night by a switch engine, was reported by the St. Boniface hospital authorities late last night to be in a very critical condition, it being doubtful if he would live until morning. He is 22 years of age, married and has a family. His wife arrived from Moorhead, Minn., yesterday, and is remaining near her husband.

Resigns Important Position.—J. A. Crozier, formerly of the real estate firm of Murphy & Crozier, and now president of the Arizona and New Mexico underwriters company, is back to return to the north-west. Mr. Crozier is so greatly impressed with western prosperity and the general opportunities offered in Winnipeg, as a result of changes that have taken place during his absence, that he has decided to resign his position and re-enter business in this city. He leaves at the end of the week for Prince Edward Island and expects to return within the next two months to open up a real estate business.

New Arrivals Satisfied.—Settlers who have been visiting the lands in the vicinity of Pairford and the east side of Lake Manitoba have been returning to the Dominion Lands office at the rate of about 25 per day to take definite steps in regard to entering for homesteads. They are well satisfied with the quality of the lands, but report that owing to the rains they found great difficulty in transportation. There were 40 entries for lands on the east side of Lake Manitoba last week. The extension of the Dominion Lands office to Fisher river is being rapidly advanced, and when completed will be a great convenience to settlers going in there.

New Fire Hall Site.—The city pound property on Logan avenue west near McPhillips street has been definitely chosen by the fire, water and light committee for the site of the new fire hall, designed to give adequate fire protection to the manufacturing district in the north-west end of Ward 4, which includes the abattoir and all warehouse district. A report in favor of this site was made by Ald. Fowler and Ald. Davidson and was opposed by Controller Douglas on the ground that the property was more valuable than necessary for a fire hall. The property to be covered by the fire hall will be divided into two lots, one for the building and the other for the abattoir and all warehouse district. A report in favor of this site was made by Ald. Fowler and Ald. Davidson and was opposed by Controller Douglas on the ground that the property was more valuable than necessary for a fire hall.

Extensive Kildonan Improvements.—At a meeting of the council of the municipality of Kildonan held Saturday evening the plans for six new subdivisions of property being opened up for building were submitted and approved. A plan was also submitted by the authorities showing the line crossing over the river for Bergen and showing the proposed subways to be built by the company over both east and west Kildonan roads. The plans were left over for further con-

Disapprove New Telephone.—The application of the Great Falls Power company for the right to use city streets for the purposes of an automatic telephone system has met with favor in the eyes of the civic fire, water, light and power committee, with the result that the committee has decided to make no favorable recommendation to council on the application. A short discussion at the regular meeting of the committee yesterday developed the fact that with the single exception of Controller McArthur, members of the committee were opposed to a second telephone system in Winnipeg, mainly on the ground that it would cause confusion and give rise to a general improvement in the telephone facilities. Several members of the committee stated that competitive telephone systems were not a success anywhere, and were being discarded in some cities. Mr. Ald. Munroe, was introduced by Ald. Davidson, and introduced the application of F. J. G. McArthur for the Great Falls automatic telephone system. He stated that it would not be in the interests of the city to have a dual system of telephones and cannot, therefore, make any recommendation to council in the premises.

Canon Henson, of Westminster, Advocates Moderate Form of Church Disestablishment. Dr. Hensley Henson, canon of Westminster and rector of St. Margaret's, arrived in the city on Saturday from London, and is a guest of his brother, G. A. Henson, 53 Wardlaw. On Sunday the distinguished visitor preached in Holy Trinity, the words, "As the heart panteth after the water brooks, so panteth my heart after thee, O God." From these words he drew lessons as to the value of the place of religion in the lives of men, and spoke of the superiority of the Christian faith to materialism. The stay of Dr. Henson will be a brief one, as he is away from England on vacation, and will return to his duties within a few weeks. In an interview with a Free Press reporter yesterday he spoke of one of the pressing questions of the day in England—Disestablishment Question. "The most urgent church question in England at the present time," he said, "is the matter of disestablishment. Although the actual disestablishment of the church in the principality of Wales, a very small section of the Anglican church of England, yet the issue is a very large one, and it is in this respect that the disestablishment of the church in Wales might at a late date be taken as a precedent for disestablishment in England. Although the disestablishment of the church in Wales, the whole question of establishment is to some extent involved. With reference to the principality itself, it is to be noted, that in this respect, there are comparatively few religious centres, where the means for the maintenance of religious ordinances can be readily secured. On the contrary, there are a great many small religious communities where it is impossible, locally, to obtain the money needed for the support of religion. The suggestion is, that the money consequent on the disestablishment in these districts should be secularized. "The amount of money involved is comparatively very small. The total sum is two hundred and fifty thousand pounds, but the country, where the annual budget is £180,000,000, this sum is insignificant. If it was turned into the public accounts, it would make no difference in the national budget. On the other hand, disposed of as it is, it secures the services of religion to many more isolated communities, doing unbounded good. Distribution Wanted. "Among the nonconformists, there is considerable doubt on the question, and I may say, that if a basis of agreement could be arrived at on this matter, it would do more for the religious peace of Great Britain than anything that I could think of. A plan for a distribution among various churches of the sum available for religious work in Wales, is discussed in England, and there are many Anglicans who are ready to consider the issue. We are particularly anxious that the money, which for so long a time has been devoted to the purposes of religion, should not be diverted and placed in the hands of the state, at the present time that an arrangement can be effected which will secure this result. "Dr. Henson is one of the best known Anglican clergymen in Great Britain and has been a prolific author. His most recent productions are, 'The National Church, Christ and the Nation,' 1908; 'Christian Marriage, 1907; 'Religion in the Schools, 1908; 'Moral Discipline in the Christian Church, 1906; 'The Value of the Bible, 1904, and many others.

RELIGIOUS FUNDS SHOULD BE DIVIDED. Canon Henson, of Westminster, Advocates Moderate Form of Church Disestablishment. Dr. Hensley Henson, canon of Westminster and rector of St. Margaret's, arrived in the city on Saturday from London, and is a guest of his brother, G. A. Henson, 53 Wardlaw. On Sunday the distinguished visitor preached in Holy Trinity, the words, "As the heart panteth after the water brooks, so panteth my heart after thee, O God." From these words he drew lessons as to the value of the place of religion in the lives of men, and spoke of the superiority of the Christian faith to materialism. The stay of Dr. Henson will be a brief one, as he is away from England on vacation, and will return to his duties within a few weeks. In an interview with a Free Press reporter yesterday he spoke of one of the pressing questions of the day in England—Disestablishment Question. "The most urgent church question in England at the present time," he said, "is the matter of disestablishment. Although the actual disestablishment of the church in the principality of Wales, a very small section of the Anglican church of England, yet the issue is a very large one, and it is in this respect that the disestablishment of the church in Wales might at a late date be taken as a precedent for disestablishment in England. Although the disestablishment of the church in Wales, the whole question of establishment is to some extent involved. With reference to the principality itself, it is to be noted, that in this respect, there are comparatively few religious centres, where the means for the maintenance of religious ordinances can be readily secured. On the contrary, there are a great many small religious communities where it is impossible, locally, to obtain the money needed for the support of religion. The suggestion is, that the money consequent on the disestablishment in these districts should be secularized. "The amount of money involved is comparatively very small. The total sum is two hundred and fifty thousand pounds, but the country, where the annual budget is £180,000,000, this sum is insignificant. If it was turned into the public accounts, it would make no difference in the national budget. On the other hand, disposed of as it is, it secures the services of religion to many more isolated communities, doing unbounded good. Distribution Wanted. Bricklayers' Conference.—A Conference of bricklayers and masons established for the welfare of the organization throughout western Canada, will be held at Prince Albert Nov. 3, next, and will be held at the local union will be held next Monday night to select three delegates to represent the Winnipeg union. Representatives will also be present from Brandon, Regina, Winnipeg, Medicine Hat, Calgary, Lethbridge, Saskatoon, Edmonton, Prince Albert and Strathcona. There will also be fraternal delegates in attendance from points in British Columbia.

Reid on Gamblers.—Deputy Chief Newton assisted by Acting Inspector Street and ten other officers made a raid on a gambling establishment at 237 Pacific avenue, which had been under suspicion as a gaming place. The officers it is said found a game in full swing, and the police having taken possession of the premises, the gamblers, including Joe Smith, Chas. Guy, W. Germain, Robert McCormick, W. Green, John Vise, W. Rowe, Ole Livingstone and C. Swanson, all being taken by the police, and butler released on bail, the amount required from the keeper being \$100 and the others \$50 each.

Lady Falls from Train.—Mrs. L. Sabine, of Laurier, Man., on her way to visit her daughter, Mrs. Percy Rowe, 357 Rosedale avenue, fell from the Glenboro branch train at Weston at 8:45 last night. The wheels of a main line freight train were passing over her leg just below the knee. When picked up by J. Waldron, 1395 William avenue, who had been attracted by her cries, she stated that being taken by the wheels of the freight train, she had gone to the vestibule of her car thinking she was close to the station, when the accident occurred. Mr. Waldron, who is a St. John's Ambulance man, applied first aid, and on the arrival of Constable Cappelle, Mrs. Sabine was taken to the General Hospital and attended by Dr. Campbell. Later it was found necessary to amputate the limb. Mrs. Sabine is 62 years of age.

Stabbing Affray.—Patrick Grier, 263 Lizzie street, and a man whose name and identity is unknown to the police at present, were acting together at Hargrave's restaurant, Pacific avenue, about 7 o'clock last night. The stranger asked Grier to pass the salt, and in doing so Grier upset the cellover, and the stranger's foot struck Grier, and an altercation between the two men, which was continued after they left the building. It ultimately led to a fight, during the course of which the stranger pulled out a knife and stabbed Grier in the breast. He was picked up unconscious, and taken to the General Hospital, the stranger in the meantime escaping. Dr. Campbell who examined the patient reported that his condition was not dangerous. The police state that according to the evidence they had been able to secure, both men were under the influence of liquor at the time of the quarrel.

Life Underwriters Convention.—R. G. McCuish, provincial manager of the Manufacturers Life, returned yesterday from a six weeks' visit to eastern Canadian and American cities. He attended the convention of the Dominion Underwriters association at Montreal at which there were 400 present, including about 50 from the west. Mr. McCuish was elected vice-president for Western Canada. He also attended the first convention of the \$100,000 club of the Manufacturers Life, which was held at French River, Ont., and 40 delegates in attendance, after transacting the business, spent a week fishing in the Muskoka district. Mr. McCuish was present at the Chicago aviation meet and witnessed the col-

FIFTEEN MORE WELLS TO BE SUNK AT ONCE. Civic Fire, Water and Light Committee Passes Recommendation—Mayor to Interview Premier. Prompt action was taken by the civic fire, water and light committee yesterday afternoon to proceed with the sinking of fifteen more wells as a result of the vote on Friday last against the Poplar Springs project. A resolution introduced by Ald. Munroe was passed with but little comment, although several members of the committee, including the chairman, Ald. Fowler, made it plain that the recommendation to council was being made only because it had been dictated by the vote of a comparatively small proportion of the ratepayers, and against their own views. Controller Douglas favored the resolution as the only thing to be done, although he reiterated his former statement that the vote on Friday was not a true indication of the actual opinion of the citizens at large. Ald. Davidson created a decided diversion when he announced that the first new well should be sunk at Poplar Springs, pointing out that there was nothing to prevent the city doing this, although there is some feeling against the necessity for special legislative permission to expend the money necessary to sink new wells. It was decided to apply to the legislature for an enabling act, and Mayor Walsh was deputized to interview Premier Roblin on the subject. The resolution introduced by Ald. Munroe, and passed by a unanimous vote, was as follows: "That in view of the adverse vote of the ratepayers on the project of extending the waterworks system to Poplar Springs, your committee recommends that the engineer be asked to furnish plans, specifications and an estimate of the cost for providing fifteen additional wells, and that statutory authority for this expenditure, that the legislature be requested to pass the necessary legalizing act, and that the necessary money be requested to confer with the premier in regard to this matter."

HUDSON'S BAY PLANS. Sir Thomas Skinner Declares New Store Will Be Worthwhile. Sir Thomas Skinner, distinguished English financier who is in the city, spent a busy morning yesterday, and will be equally busy for several days, looking into the enterprises in which he, and his associates in London, are interested here. One of the matters of chief interest to the visitor is the development of the general business of the Hudson's Bay company, of which he is one of the directors. The plans for the wide extension of the activities of the old company, will be given his close consideration here, and many other matters connected with the financial work of the west, will be taken up. A. M. Nanton was one of the earliest callers yesterday, and later in the forenoon Sir Thomas made a very agreeable trip about town. Asked regarding the plans of the new building of the Hudson's Bay company in this city, the visitor had little to say, stating that the matter is not yet settled, and that the commissioner. He stated that no plans would be spared to make the Winnipeg store worthy of the west, and that the work would be proceeded with as soon as the preliminary matters had been disposed of. Sir Thomas was known in London for many years as the publisher of the 'Stock Exchange Year Book, the Directory of Directors, the London Banks, etc. He is a director of the Canadian Pacific railway, the Bank of Montreal, the Commercial Cable company, and many other companies. He will be in the west for several weeks going through to the Pacific coast.

DEATH ACCIDENTAL. Jury Assign Fatal Accident to Peter Breen to Slipping of Clamp. "That Peter Breen came to his death on Friday, Sept. 13, 1912, at the corner of Osborne street and Broadway in the city of Winnipeg by reason of the slipping of a clamp attached to a trolley on the erection of which he and others were engaged." The above verdict was returned by the jury at the inquest concerning the fatality referred to, before Dr. Ritchie.

DEATHS AND FUNERALS. George McCloy, Dominion government boiler maker, died at his family residence, 37 Burrows avenue, yesterday afternoon after an illness extending over two months. He was 60 years of age and leaves a widow and two children. The deceased was a native of Massachusetts, Ont., and came to this country about 10 years ago. He had occupied the position he held at the time of his death since 1907. He leaves a father, four sisters, Mrs. McDonald, wife of Dr. McDonald, Valley City, N.D.; Mrs. J. O. Graham, St. Paul, Minn.; Mrs. J. P. H. of the city; Mrs. James Galt, of Saskatoon, and two brothers, Marquis McCloy, of Prince Albert, and Tom McCloy, of Assiniboia. The funeral will take place Thursday afternoon. Private service will be conducted at the home. The deceased having been a member of the lodge A. P. and A. M., the cortege will proceed to the Masonic temple, where the Masonic services will be held, and where the public will be invited. Information will be made at Brooksdale cemetery. Mr. and Mrs. John Gallagher, 663 William avenue, mourn the death of their two-year-old son, Patrick, who died yesterday morning at 10 o'clock. The funeral will be held Tuesday afternoon at 2:30 from the residence to St. Mary's cemetery.
